SUBJECT: Revised Draft on Exchange of National Intelligence with the
25X1X7

1. Attached is a revised draft of a possible staff study on this subject. It takes account of all comments received, except for a memorandum by AD/IC, received today. This memorandum contains extremely helpful detail on the pros and cons of possible solution in the specific field of National Estimates. Under separate cover, I am forwarding copies to AD/NE and AD/CD, as having the greatest concern with this subject. For the present, I think the draft should concentrate on the over-all picture.

25X1A9a 2. During my absence, through 20 September, this matter will be handled by [REDACTED] (extension 2877). Please send comment on this revised draft to him by close of business Monday, 17 August. DD/I returns from military duty and leave on Monday 24 August, and may wish to carry the matter further at that time, although he does not anticipate action prior to DCI's return.
